SKILLS

- C,C++,JAVA(BASICS),C#
- HTML, CSS , JAVASCRIPT , REACT JS,REST API
- MongoDB Database

EDUCATION

- Bachelor of Engineerings 2021-25
Sant Gajanan Maharaj College of Engineering, Mahagaon
- 12th 2020-21
M. R. Jr.College, Gadhinglaj Marks : 94.50%
- 10th 2021
S. M. HighSchool, Basarge Marks : 92.20%

COURSE

Java Programming From NPTEL

PROJECTS

- ❖ **Social-welfare Webapp (Resilience Radar)**
 - Developed a user-friendly and easy reporting platform. 11/2021 – 05/2025 Gadhinglaj
 - India Platform to report various social issues to the government authorities for them to handle it with the provided descriptions.
 - Implemented OpenLayer and react-webcam for adding Camera and Map with pinning location functionalities.
 - Technical Skills: REST API, React Js, Bootstrap, Tailwind CSS, Material MUI, Cloudinary, MongoDB, Framer-Motion.
- ❖ **iNotebook**
 - Developed a secure, feature-rich online note-taking application named iNotebook using React.js for the front end and Node.js for the back end. The app allows users to create, edit, and manage notes efficiently, with robust authentication and data encryption.
 - **Technologies Used:**
 - Front-End: React.js, JavaScript , HTML, CSS, Bootstrap
 - Back-End: Node.js, MongoDB
 - API Integration: RESTful APIs
 - Version Control: Git, GitHub

RELEVANT EXPERIENCE

Social-welfare WebApp (Resilience Radar)

- Collaborated with cross-functional team to develop a user-friendly social issue reporting platform.
- Give styling to the frontend using AI .
- Worked closely with a frontend developer to ensure seamless functionality

COURSE-WORK

- Operating System
- Computer Networks.

ACHIEVEMENTS

Gold Badge in Java on HackerRank

Completed the internship in Web Development at CodSoft
